WORKING GROUP DECISION OF DOMAIN MATCH AND FEASIBILITY

Based on the assessment of the items above, the Working Group evaluates whether the instrument is feasible.

**Working Group Assessment:**

**GREEN:** The instrument meets both the domain match and feasibility criteria and the work can move forward to Part B without changes.

**AMBER:** The instrument generally meets the domain match and feasibility criteria, but there are some concerns or weaknesses. Revisions or clarifications may be required before proceeding with caution.

**RED:** The instrument does not meet the domain match or feasibility criteria. Significant issues must be addressed before any further progress can be made.

**Date of Submission:**
